

How is the registration fee used?

The registration fee covers, but not limited to, enrollment and administrative fees, equipment including classroom improvements.

Why is there a cut off time for arrival?

In order to plan for daily activities, meals, and staffing needs LNCA enforces a cut off time of 9:30am.

How do you promote positive behavior?

At LNCA, we use positive techniques to guide behavior such as redirection, anticipation, and elimination of potential problems. We make direct eye contact with each child and explain the situation so he or she is able to understand the reason for our requests. In some cases the teacher may use a no talk and no emotion technique which allows the child to change the behavior. If the child receives a three the children will go to the table for a few minutes to calm down and regroup.

What do you serve for Meals?

LNCA promotes interest in a variety of healthy foods by offering fresh fruits and vegetables in accordance with the USDA food program. Menus are available on this website and posted in the classrooms.

Can I come in and volunteer?

As partners in your child's education, we would like you to help at LNCA when you can. Please see the Director for more information. We welcome you!

How is your naptime nurturing?

During our 12:30pm to 2:30pm nap time your child is encouraged to sleep. If your child is not a sleeping child, alternative activities will be offered. We do turn off the lights and close the blinds, play soft music and rub children's backs to help them fall asleep. Often a soft toy or a blanket is helpful in keeping a child happy and comfortable at rest time. Of course, we will also allow a child to rest at any other time they feel tired.

What percentage of your staff are veteran staffs?

Seventy-five percent of the staff at LNCA is veteran staff. We strive to offer quality early education, so we look for degrees in Early Childhood Education. We help minimize staff turnover. Since teaching can be very stressful, particularly to newer teachers, we have training offered and can offer days off when teachers need it.
